BYNDIO B2B – Product Requirement Document

Building India's most trusted B2B marketplace through verified leads, mandatory KYC, and performance-based supplier ranking. This comprehensive PRD outlines the platform architecture, modules, and technical specifications for development.

Made with GAMMA

Platform Overview & Core Differentiators

Mandatory KYC

Both buyers and suppliers must complete verification with GST, PAN, and bank details validation.

Verified Leads

Paid system ensures quality leads with ₹10 validation fee per RFQ from buyers.

Performance Ranking

Supplier scores based on response time, completion rate, and buyer ratings.

No Spam System

Eliminates open enquiry spam through lead credit management and verification.

Unlike traditional marketplaces, BYNDIO combines IndiaMART's model with Alibaba's escrow concepts, creating a secure, trust-based ecosystem. Optional escrow transactions with 2% platform fee ensure payment protection.

User Roles & Authentication System

Four User Roles

- Super Admin – Full platform control
- Supplier – Product listings and quotes
- Buyer – RFQ posting and purchases
- Sub Admin – Support team operations

KYC Requirements

Supplier: Business Name, GST Number (API validated), PAN, Address, Bank Details, OTP & Email verification

Buyer: Company Name, GST (optional), PAN, Contact details, Business type, OTP verification

01

Registration

Supplier or Buyer account creation with mandatory fields

02

Document Upload

GST, PAN, address proof submission with API validation

03

Admin Review

Manual KYC approval by Super Admin or Sub Admin

04

Account Activation

Approved users gain platform access with verified status

Subscription Plans & Lead Management

Basic Plan

₹999/month

- 20 verified leads
- Basic dashboard access
- Standard support

Growth Plan

₹2,999/month

- 100 verified leads
- Enhanced analytics
- Priority support

Pro Plan

₹7,999/month

- Unlimited leads
- Escrow access
- Dedicated account manager

Subscription system integrates Razorpay for payments, auto-renewal, invoice generation, and expiry tracking. Lead credits auto-deduct per RFQ received. When limit finishes, system blocks new enquiries until renewal.

RFQ System & Lead Management

Buyer Posts RFQ

Product name, quantity, budget, timeline, ₹10 refundable fee

System Matches

Automatically sends to relevant suppliers based on category

Supplier Receives

Lead credit deducted, quotation submission enabled

Quote & Chat

Submit PDF quote, attach documents, real-time messaging

Supplier Dashboard Metrics

- Total Leads (purchased)
- Used Leads (RFQs received)
- Remaining Leads (available)
- Conversion Rate (percentage)

Lead Status Tracking

- New (unresponded)
- Responded (quote submitted)
- Converted (order placed)
- Rejected (buyer declined)

Escrow System & Payment Flow

Buyer Places Order

Payment amount transferred to BYNDIO escrow wallet instead of direct supplier payment

Supplier Marks Shipped

Supplier updates order status to shipped with tracking details

Buyer Confirms Delivery

Buyer verifies receipt and quality of products before confirming

Payment Released

System releases funds to supplier, deducts 2% platform fee

Escrow system includes wallet ledger, transaction history, dispute resolution mechanism, and refund management. Optional feature available from Pro subscription plan onwards.

Supplier Ranking Algorithm

Performance-based ranking ensures quality suppliers appear first. Admin can adjust weightage of each factor.

Response Time

Average time taken to respond to RFQs and buyer enquiries

Order Completion

Percentage of orders successfully fulfilled without cancellation

Delivery Confirmation

Buyer confirmation rate after product delivery

Buyer Rating

Average star rating given by buyers after order completion

Repeat Buyers

Percentage of buyers who return for additional orders

Made with GAMMA

Admin Panel & Category Structure

Admin Management Capabilities

- KYC approvals and rejections
- Subscription plan management
- Category and subcategory hierarchy
- Dispute resolution system
- Lead monitoring and fraud detection
- Revenue dashboard and analytics
- Reports generation

Category Hierarchy (Phase 1)

1. Fashion Wholesale
2. Beauty Bulk Products
3. Packaging Materials
4. Textile Mills
5. Local Manufacturers

Each category supports subcategories → products tree structure

Technical Architecture & Security

Backend Stack

Node.js / Laravel framework for server-side logic and API development

Database

PostgreSQL for relational data with proper foreign key constraints

Hosting

AWS infrastructure using EC2 instances and RDS for database

Frontend

React / Next.js for responsive web interface development

Mobile App

React Native for iOS and Android (Phase 2 development)

Security Requirements

- HTTPS encryption mandatory for all connections
- Encrypted storage for bank details and sensitive data
- OTP-based login with mobile verification
- Rate limiting to prevent spam and DDoS attacks
- Audit logs for all critical operations and transactions
- Anti-scraping protection with CAPTCHA and bot detection

MVP Scope & Success Metrics

MVP Launch (First 6 Months)

Core Features Built

- Registration + KYC verification
- Subscription management
- RFQ system with validation fee
- Lead credit tracking
- Chat + quotation system
- Admin panel with analytics

Phase 2 Features

Escrow system, mobile app (React Native), additional categories

Target Launch

500 suppliers onboarded in Hyderabad region

Key Performance Indicators

2%

Platform Fee

Escrow transaction charge

₹10

RFQ Validation

Refundable fee per enquiry

500

Supplier Target

Initial launch in Hyderabad

Lead to Conversion

Percentage of RFQs resulting in orders

Average Response Time

Time taken for suppliers to quote

Supplier Retention

Monthly active supplier percentage

Monthly Revenue

Recurring subscription income

Verified Buyer Ratio

Proportion of verified buyers
